

**Smuggler Wheat**

Aspen Brewery's unfiltered Hefeweizen style Wheat Ale, designed for outdoorsmen and outdoorswomen who want a refreshing brew after a fun day of making the most of Aspen's amazing landscape. The low hop and therefore low bitterness of this beer means it is truly a thirst quencher that also

provides much-needed nutrients after an active day.

Style: Wheat Color: Golden, cloudy IBU: 40-45 ABV: 6.6%

Availability: Year-round

**Ajax Pilsner**

This beer is a crisp and thirst quenching lager, a beer that's a bit lower on the alcohol scale than our other offerings, allowing that après ski party to last well into the night. Sterling hops are what Head Brewer Terry Butler generously doses our Ajax Pilsner with, allowed to mellow with age, these hops provide the definition of a 'bouquet' for a beer. Ajax Pilsner does not have the bitterness that can be found in the Independence Pass Ale, or even the Conundrum Red ESB, but instead has just the right amount of delicious floral character.

Style: Czech Pilsner Color: Straw IBU: 40 ABV: 5%

Availability: Year-round

**Brown Bear Ale**

Aspen Brewery's American Brown Ale offering – get ready to enjoy an amazing balance between Golding's aroma characteristics and rich, chocolate, even slightly woody or smokey maltyness. Vienna, Munich and Caramel malts provide the muscle

behind this beer – but don't get intimidated, this Brown's smooth finish will leave you thirsty for a second, or even third pint.

Style: American Brown Ale Color: Brown IBU: 40-45 ABV:

5% Availability: Year-round

**Conundrum Red Ale**

Have you ever heard of an ESB? In most cases, it stands for Extra Special Bitter, and man is this red extra special. Conundrum walks the line between a malt-centric sweet ale and a hop-centric bitter ale so well, it's tough to describe. Quite the conundrum indeed! If you love the Independence Pass Ale, but sometimes just want something a little 'mellow', something with a little more malt profile, this beer may be what you're looking for. If you like our Brown Bear but are thirsty for something with a bit more snap, give it a try! So far, everyone's loving the stuff!

Style: Red Ale Color: Deep Copper IBU: 65-70 ABV: 7%

Availability: Year-round

**Independence Pass Ale**

Aspen Brewery's Independence Pass Ale is Aspen Brewery's super-hopped high altitude rendition of the classic India Pale Ale style. Independence Pass Ale utilizes insane amounts of Palisade hops, a hop that is relatively new on the IPA scene. In addition, we use Columbus,

Cascade, and Simeoe hops. Set in contrast with our secret mash recipe, be prepared to be wowed. This beer stinks of hops, hops, hops.

Style: India Pale Ale Color: Amber IBU: 75-80 ABV: 7.7%

Availability: Year-round

**Pyramid Peak Porter**

Ready for something dark and delicious? Something that looks as great as it tastes? Something smokey, malty, and smooth? Get into a pint of Aspen Brewery's Pyramid Peak Porter! Brewed with tons of Roasted, Chocolate, and Black malts, balanced with a heavy dose of delicious and earthy Fuggle hops, this porter is just what the not-afraid-of-the-dark (beer drinking) person is looking for.

Style: American Porter Color: Opaque IBU: 45 ABV:

5.5% Availability: Year-round
